

Organization

Using organization in CVAT.

Organization is a feature for teams of several users who work together on projects and share tasks.

Create an **Organization**, invite your team members, and assign roles to make the team work better on shared tasks.

See:

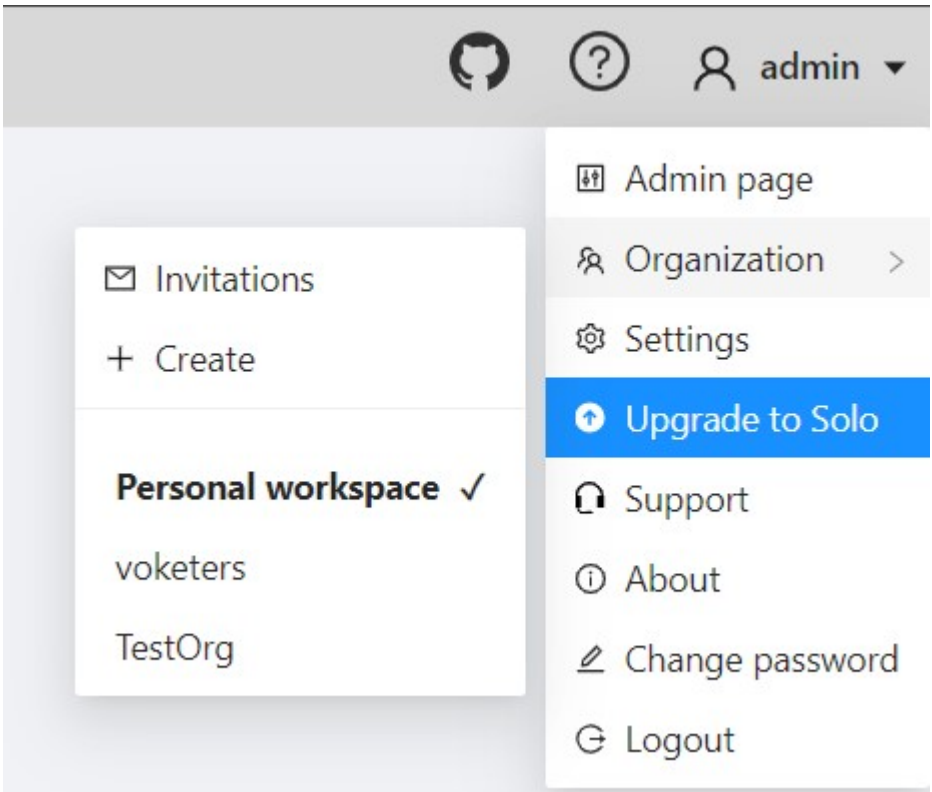

- [Personal workspace](#)
- [Create new organization](#)
 - [Switching between organizations](#)
- [Organization page](#)
- [Invite members into organization: menu and roles](#)
 - [Inviting members to Organization](#)
 - [Invitations list](#)
 - [Resending and removing invitations](#)
- [Delete organization](#)

Personal workspace

The account's default state is activated when no **Organization** is selected.

If you do not select an **Organization**, the system links all new resources directly to your personal account, that inhibits resource sharing with others.

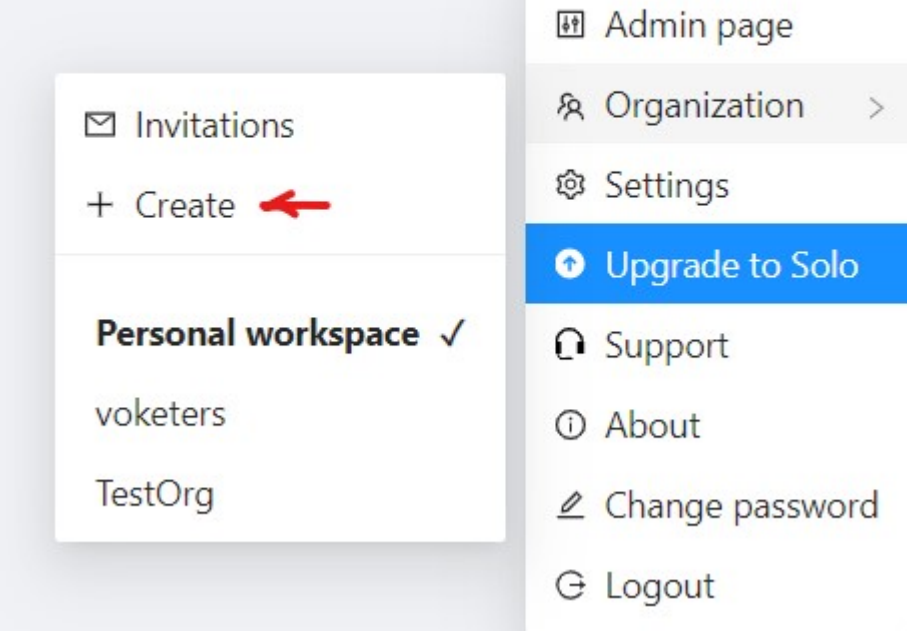

When **Personal workspace** is selected, it will be marked with a tick in the menu.

Create new organization

To create an organization, do the following:

1. Log in to the CVAT.
2. On the top menu, click your **Username** > **Organization** > **+ Create**.

3. Fill in the following fields and click **Submit**.

Create a new organization

Short name

org1

Full name

Organization 1

Description

the team that deals with the annotation

Email

example@mail.com

Phone number

+44 5555 555555

Location

Country, State/Province, Address, Postal code

Cancel

Submit

Field	Description
Short name	A name of the organization that will be displayed in the CVAT menu.
Full Name	Optional. Full name of the organization.
Description	Optional. Description of organization.
Email	Optional. Your email.
Phone number	Optional. Your phone number.
Location	Optional. Organization address.

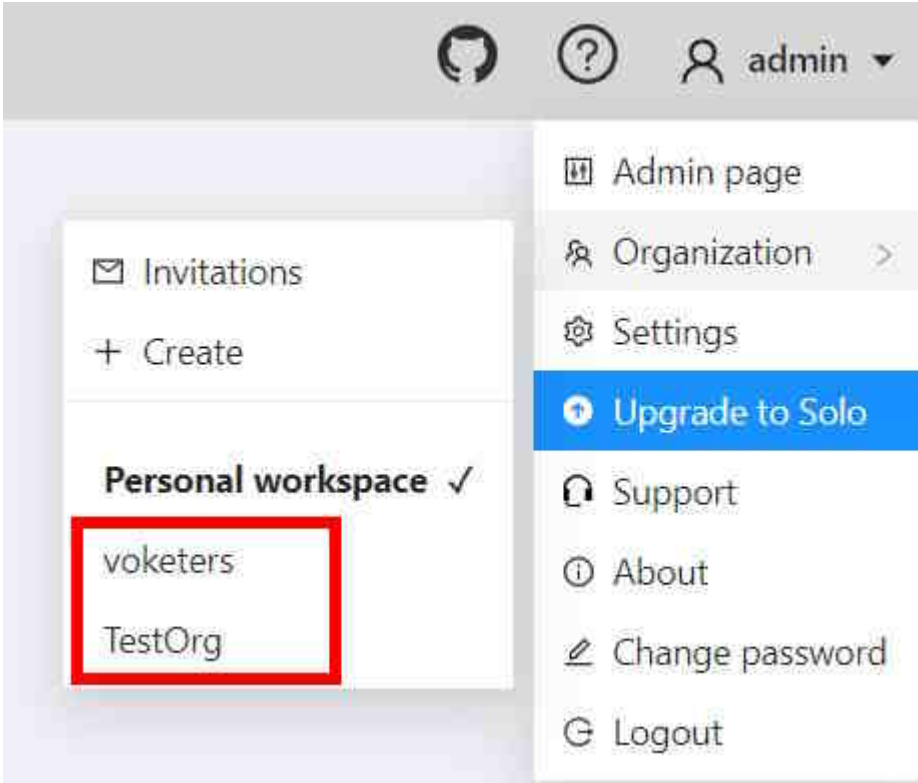

Upon creation, the organization page will open automatically.

For future access to your organization, navigate to **Username > Organization**

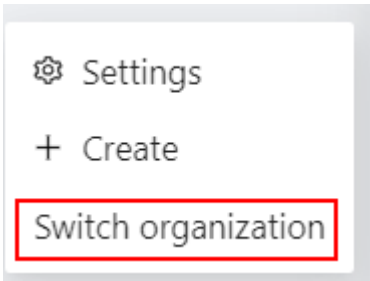

Note, that if you've created more than 10 organizations, a **Switch organization** line will appear in the drop-down menu.

Switching between organizations

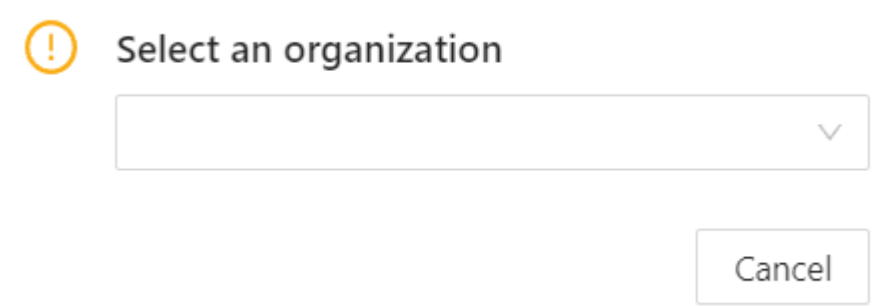

- 1. In the top menu, select your **Username** > **Organization**.
- 2. From the drop-down menu, under the **Personal space** section, choose the desired **Organization**.

Note, that if you've created more than 10 organizations, a **Switch organization** line will appear in the drop-down menu.

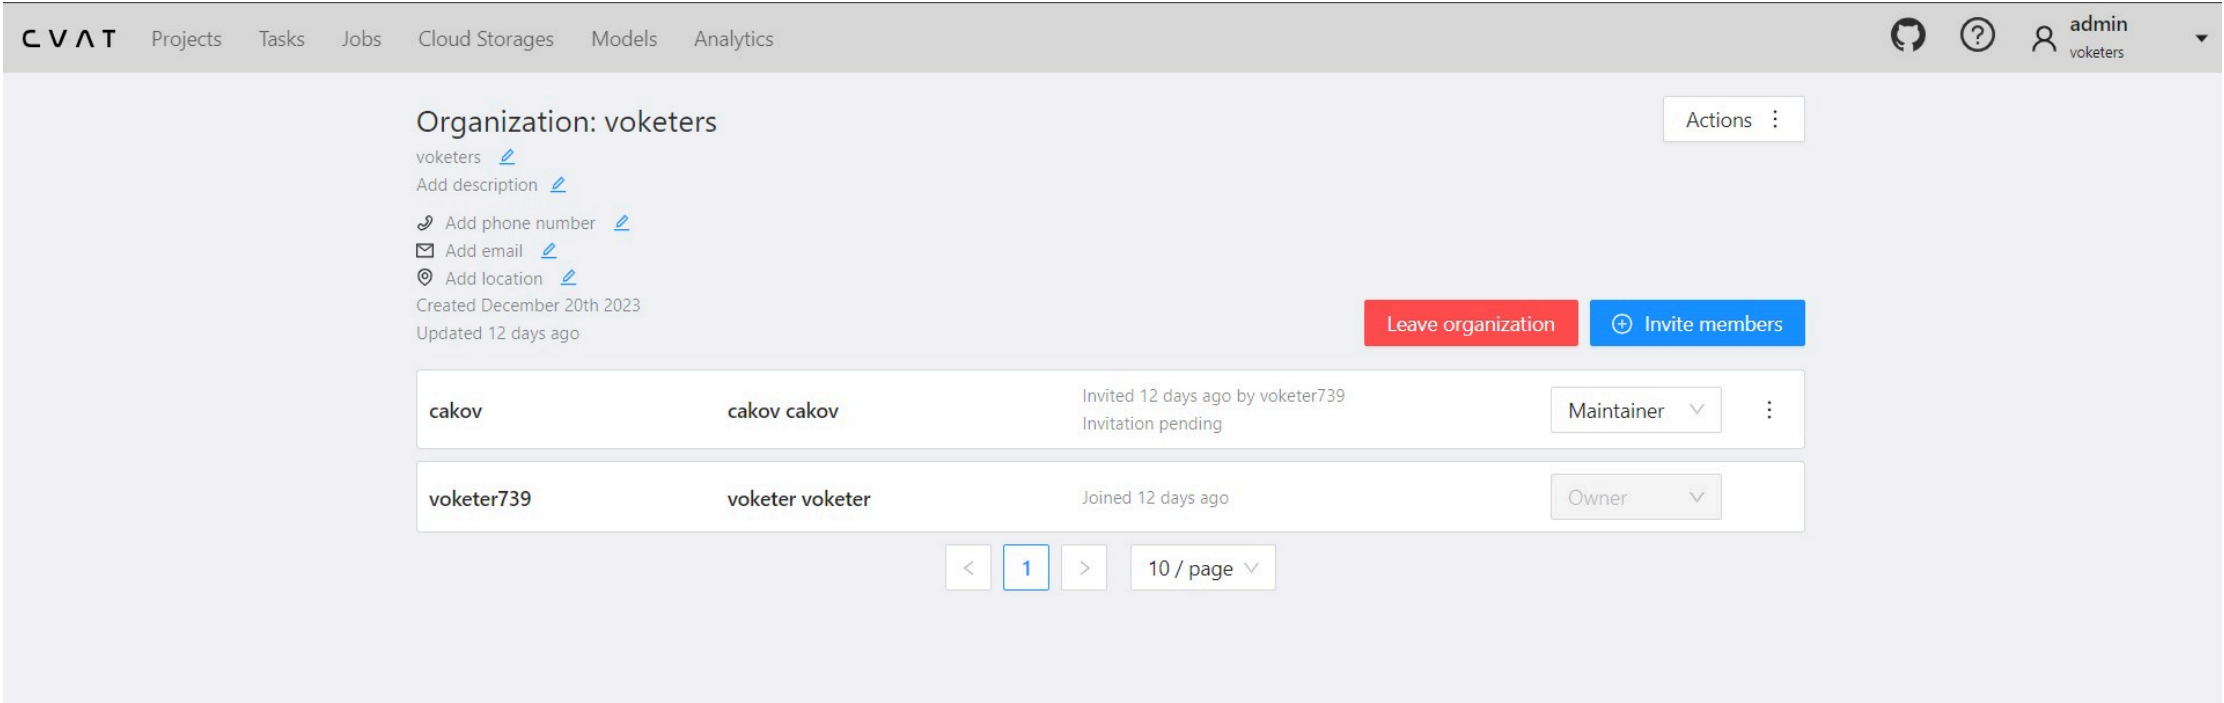

Click on it to see the **Select organization** dialog, and select organization from drop-down list.

Organization page

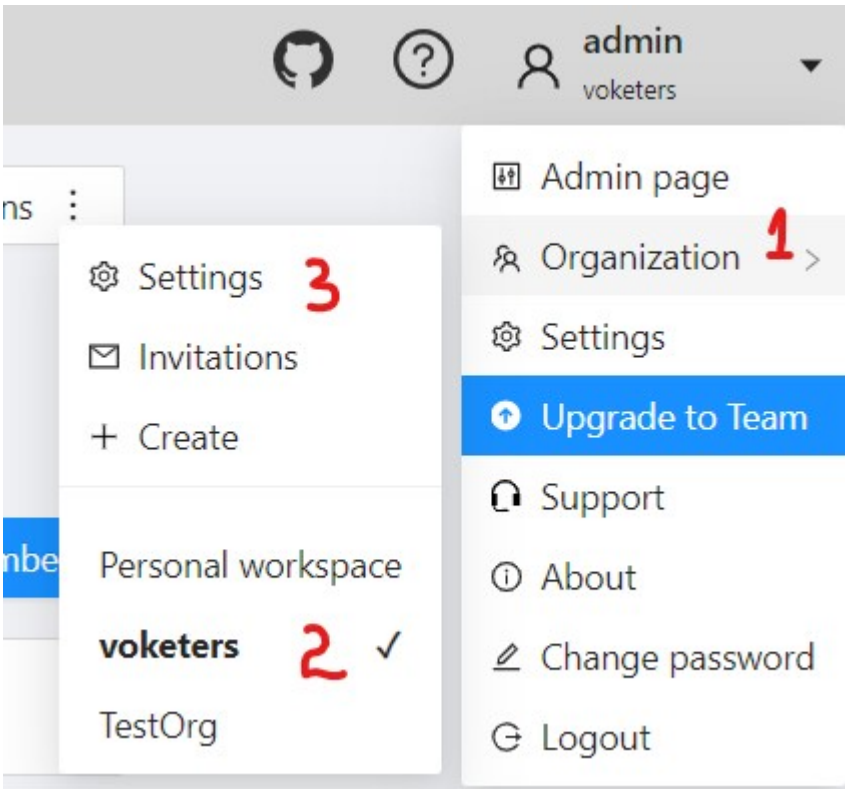

Organization page is a place, where you can edit the **Organization** information and manage **Organization** members.

An organization is considered created when its name is added in the drop-down menu and its name is visible in the top right corner under the username.

To go to the **Organization page**, do the following:

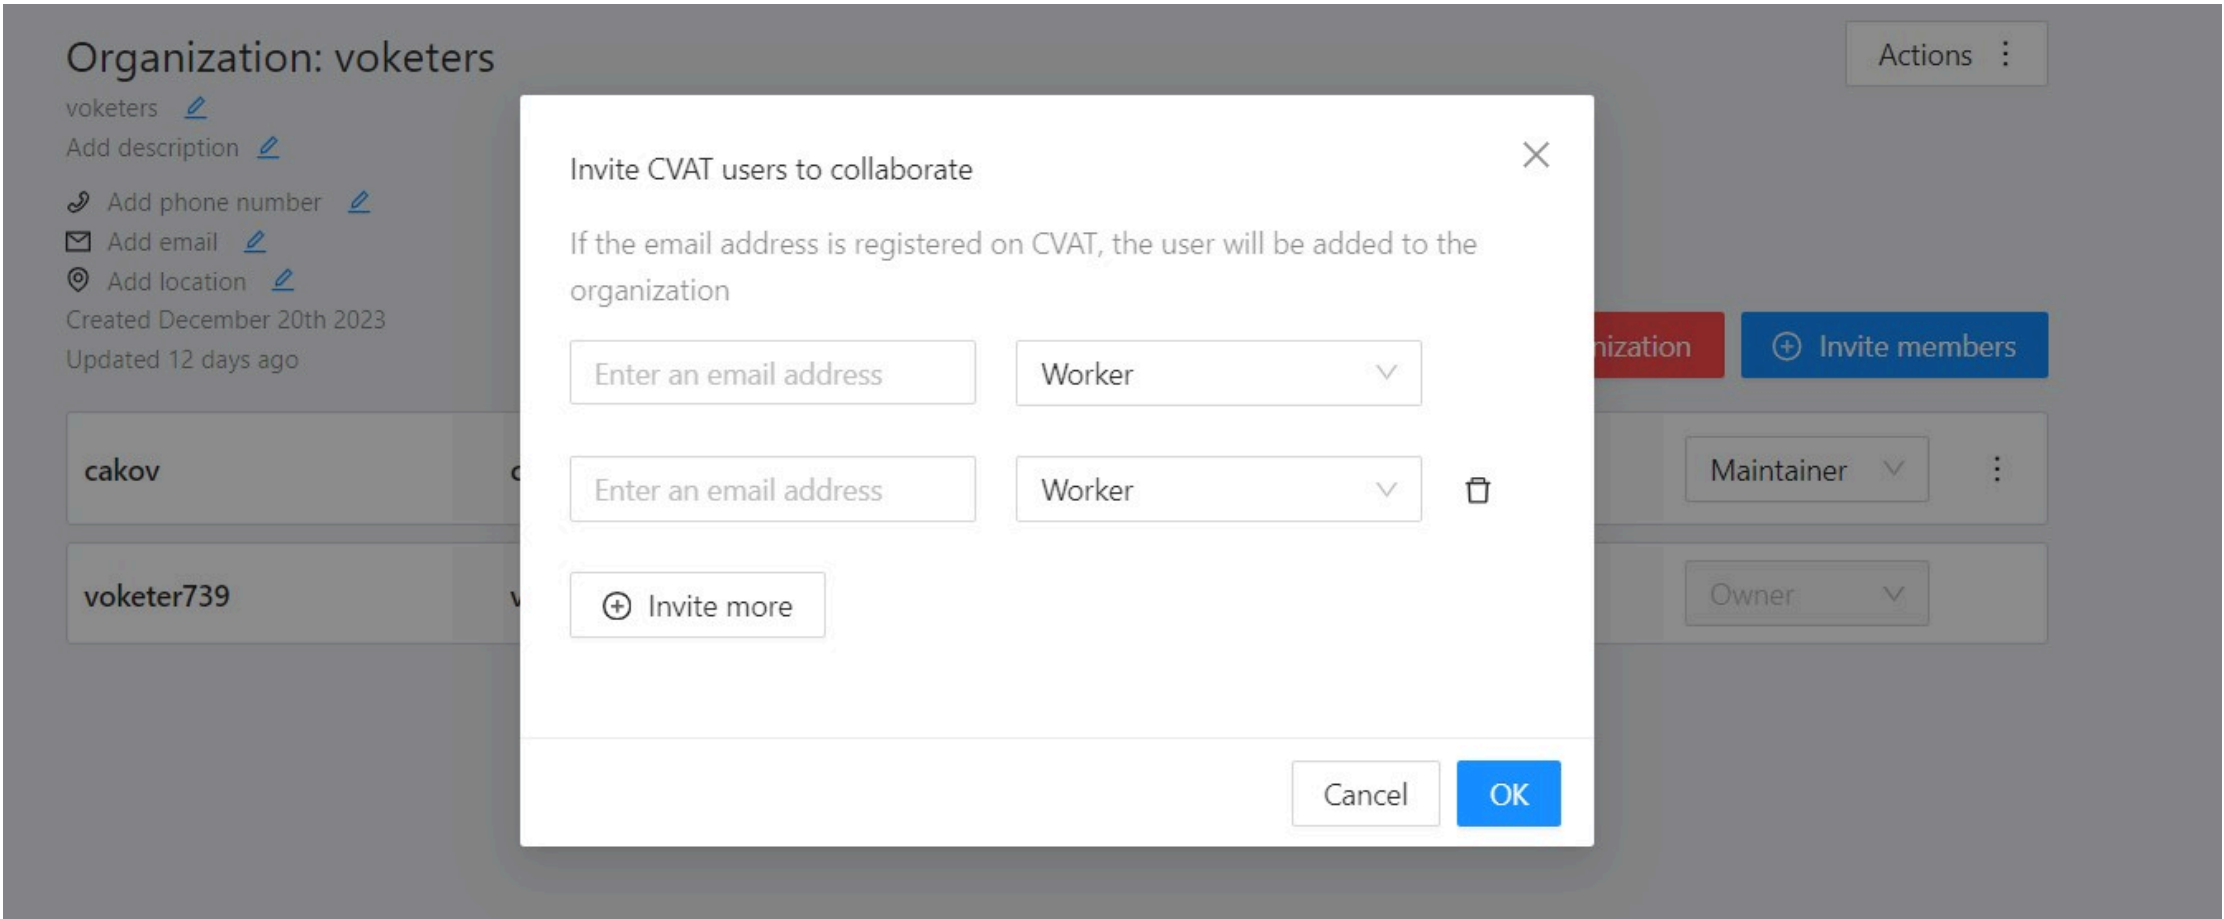

- 1. On the top menu, click your **Username** > **Organization**.
- 2. In the drop-down menu, select **Organization**.
- 3. In the drop-down menu, click **Settings**.

Invite members into organization: menu and roles

Invite members form is available from [Organization page](#).

It has the following fields:

Field	Description
Email	Specifies the email address of the user who is being added to the Organization .

Role drop-down list	Defines the role of the user which sets the level of access within the Organization : • Worker: Has access only to the tasks, projects, and jobs assigned to them. • Supervisor: Can create and assign jobs, tasks, and projects to the Organization members. • Maintainer: Has the same capabilities as the Supervisor, but with additional visibility over all tasks and projects created by other members, complete access to Cloud Storages, and the ability to modify members and their roles.
---------------------	--

assigned to the other user.

Invite more Button to add another user to the **Organization**.

Members of **Organization** will appear on the **Organization page**:

Organization: voketers

Maintainer

Cancel

OK

- 3. Click **Ok**.
- 4. The person being invited will receive an email with the link.

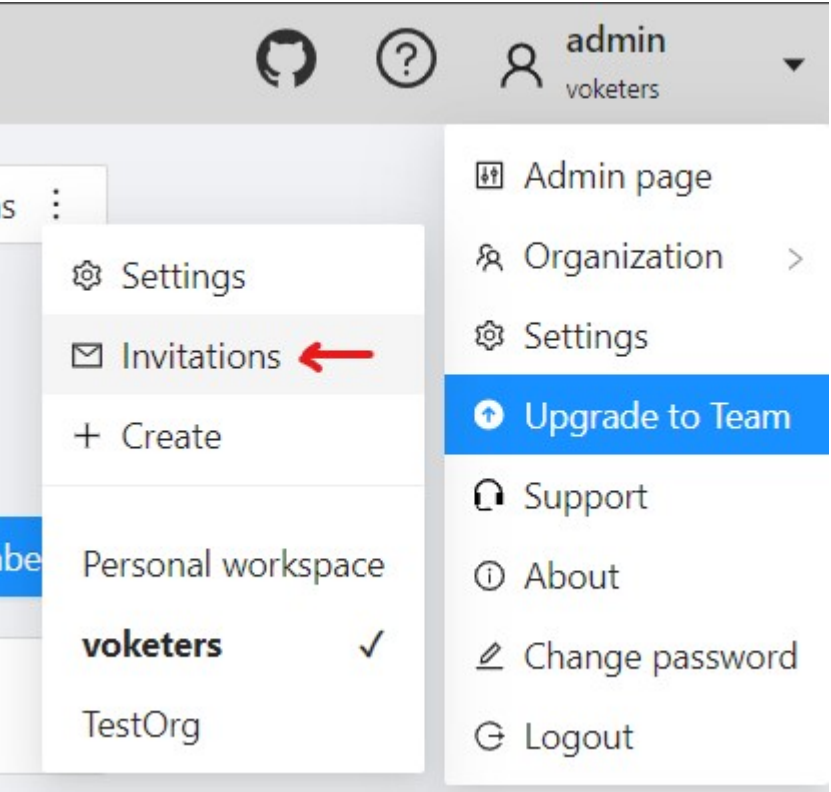

5. Person must click the link and:

1. If the invitee does not have the CVAT account, then [set up an account](#).
2. If the invitee has a CVAT account, then log in to the account.

Invitations list

User can see the list of active invitations.

To see the list, Go to **Username > Organization > Invitations**.

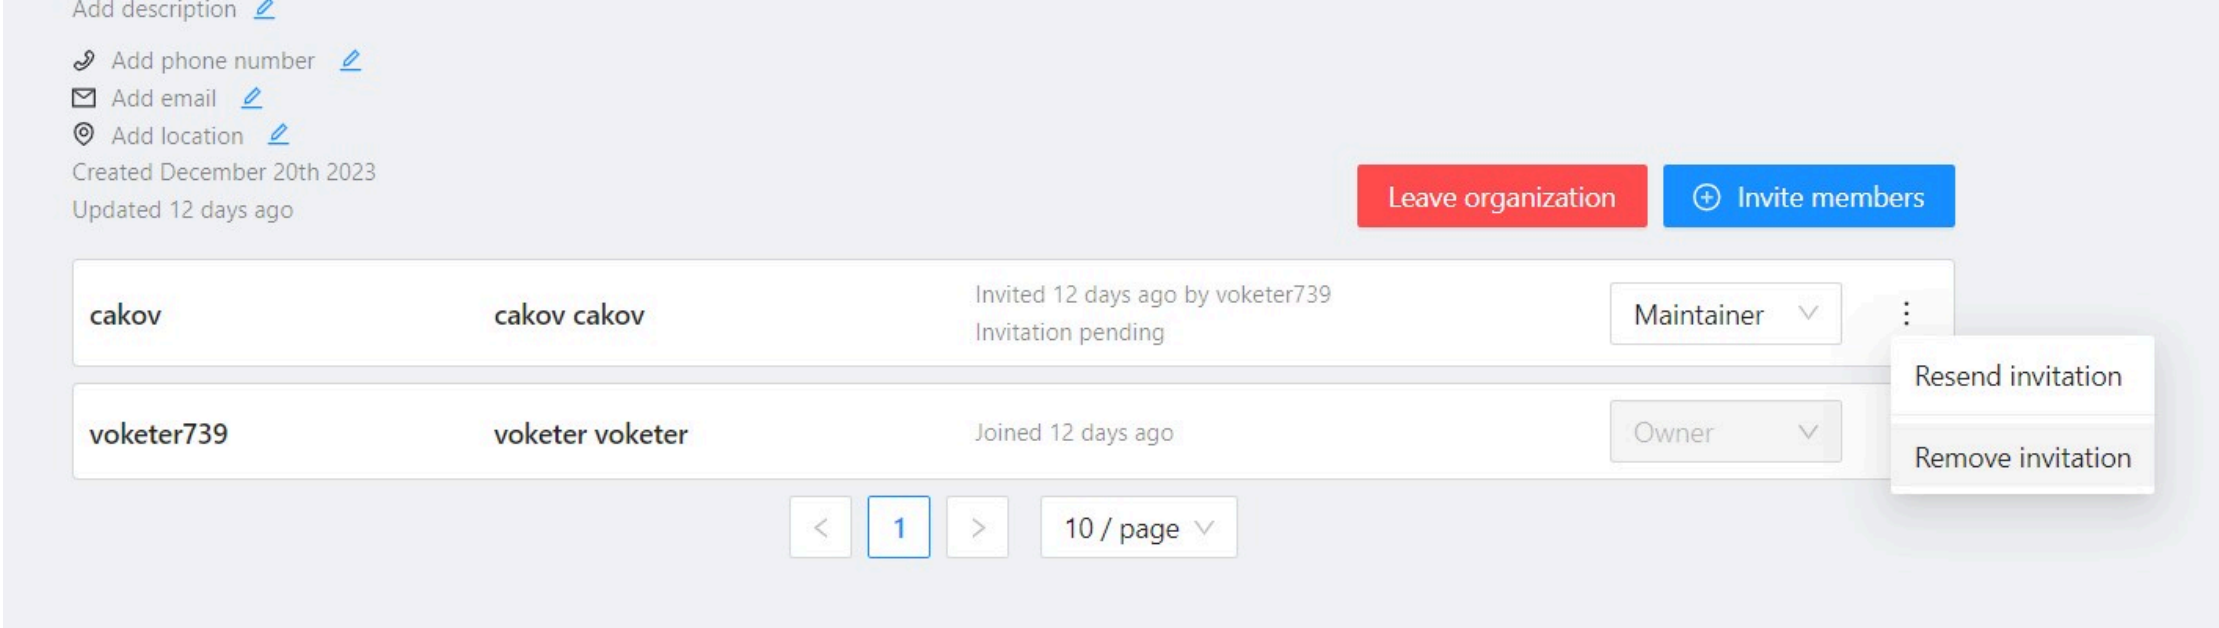

You will see the page with the list of invitations.

You will also see pop-up notification the link to the page with invitations list.

Resending and removing invitations

The organization owner and maintainers can remove members, by clicking on the three dots, and selecting **Remove invitation**

The organization owner can remove members, by clicking on the **Bin** icon.

Delete organization

You can remove an organization that you created.

Note: Removing an organization will delete all related resources (annotations, jobs, tasks, projects, cloud storage, and so on).

To remove an organization, do the following:

1. Go to the **Organization page**.
2. In the top-right corner click **Actions > Remove organization**.
3. Enter the short name of the organization in the dialog field.
4. Click **Remove**.
