

Registration & Account Access

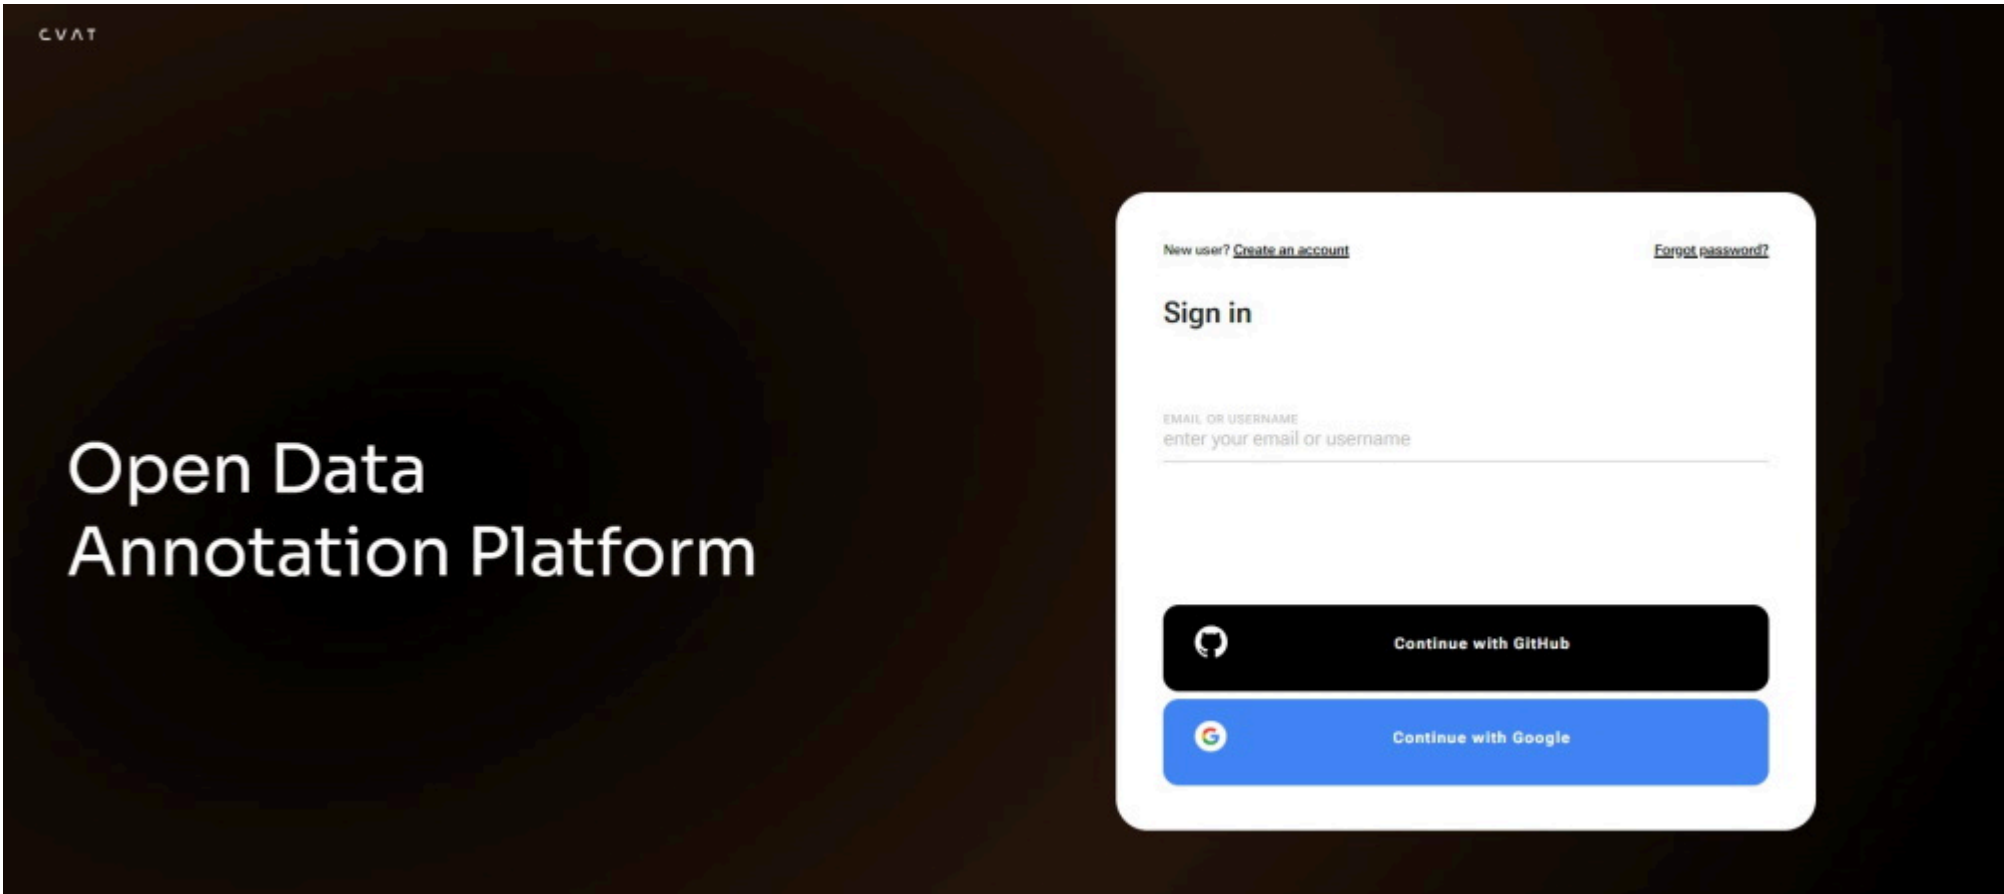

CVAT.ai registration and account access.

To start to annotate in CVAT.ai, you need to create an account or log in to the existing account.

See:

- [User registration](#)
- [User registration with social accounts](#)
- [Account access](#)
- [Password reset](#)
- [Change password](#)

To create account or log in, go to the [CVAT.ai Cloud](#) login page:

Note: By default authentication and registration with Google and GitHub work only for [CVAT.ai Cloud](#).
If you want to use Google and GitHub authentication on a local installation, see [Social auth configuration](#).

User registration

To register, do the following:

1. Click **Create an account**.

Sign in

Email or username

 Continue with GitHub

 Continue with Google

2. Fill in all blank fields, accept terms of use, and click **Create an account**.

User registration with social accounts

Account access

To access your account, do the following:

1. Go to the login page.
2. Enter username or email. The password field will appear.
3. Enter the password and click **Next**.

To log in with Google or GitHub, click the button with the name of the service.

Password reset

To reset password, do the following:

1. Go to the [CVAT.ai Cloud](#) page and click **Forgot password?**

2. Enter email you used for registration and click **Send**.
3. Open email and click on the link from CVAT.
4. Enter new password in both fields and click **Change password**.

Change password

To change password, do the following:

3. Select Change password.

4. Follow instructions on the screen.
